

Barry Passman

November 26, 1922 - July 4, 2018

Barry Consett Passman of Ormond Beach, FL, passed away Wednesday, July 4, at the age of 95. Barry was born November 26, 1922 in Teddington, Middlesex, England to Percival and Madeline Passman and immigrated to the United States in 1948. After several jobs in England and the United States he hired into Spartan Industries where he became chief engineer and Vice President of Product Design. He was one of the last self-taught engineers and worked his way up from the bottom. He was preceded in death by his wife, Pauline Passman and daughter Gail Karen Passman. He is survived by three children, Lyn D Lantz (Tom), Susan L Hardy (Monte) and Scott C Passman (Leila), four grandchildren, Shelly Howard (Scott), Karen Baker (Eric Terrian), Brian Szczesny (Kimberly), Sydney Telfer (Jordan), five great-grandchildren and numerous nieces and nephews in England. He is also survived by his furry friends, Katie and Bobby. Barry had a passion for sailing, photography and cars, particularly his 1955 Corvette. When discussing what information he would like published in his obituary, Barry responded as follows:

“It would be wonderful if I could say that the world is a better place as a result of my time here; alas I have not produced a great piece of art or written a prize winning book or found a cure for cancer. However, Pauline and I have produced four wonderful children and maybe the offspring will be memorable. I have made many mistakes along the way but I have never knowingly harmed another human being. I have worked hard all my life to provide comfort and support to my family and in my old age I have done my best to help my friends and neighbors. In summary I am an ordinary man and this is my way of saying goodbye to my family and friends.”

Per his wishes, Barry has been cremated and there will be no services. He will be interred in Roseland Memorial Gardens in Jackson, Michigan, alongside his wife and daughter

Comments

“ Dear Sue, I still remember meeting your dad one day when we stopped by your house. Probably about 1970 ish. I thought what a wonderful, kind, good looking father he was. Anyone could see the light of love in his face for his daughter. As my father had died 3 years earlier, I thought you were a lucky lady to have yours still with you. Now I can only think how lucky you were to have him all these years. God chose to take him home to heaven, but has left all the memories in your heart. RIP Mr Passman...you surely passed your love on to your family. Love & hugs, Marcia & Ron Kokoczka
