“ I miss my brother so very much and can't believe he is gone. I member so many things about him growing up. There were the five of us and we all played together. One day Bob decided to test my reflects and he got his toy hammer and started hitting my knee and I told him to quit but of course being Bob he kept on. So, I got up and went and got dad's hammer and hit his knee with it. Well it was funny when we got older but than it was a big punishment for me. Bob never did test my reflexes again. Bob I know you are watching over us and I will never forget our last conversation, I will carry it in my heart always. I love you big brother till we meet again. Gone but never forgotten !!

“ Bobby was my oldest brother and I have lots of memories. One time we were cooking in the kitchen and he just about used all the pans and I laughed because everyone teases me about using all the pans or when I would call him I would ask him what he was doing and he would say talking to you silly. I miss him so much. Love you so much Bobby.
