“ Steve and I were very close working with the Department of Corrections probation and parole. We had each other's back and through the years we became best friends in fact the only friend I ever had. Our families were close and after I left Probation and Parole and move to a different state, we still kept in close contact with each other.

When my son died in 2008 Steve and Colleen going to Orlando for my son's funeral and gave us great comfort. You only come across a good friend like Steve once in a lifetime and he will be sorely missed by everyone that he's touched. Both of you came to Eva's memorial service which goes to show even though we live in different cities we still kept in touch and went out two restaurants together. Love you Steve and calling if you need anything anything at all please call me love you all right Ray
